

Overview & Expertise

Hitesh N.Panchal

Business Owner – Reboot Technologic (December 1993 – Present)
Mumbai, India | +91 9821143288 | hslinsys@gmail.com.
Birth : November,1970.

Tech-driven. Solution-focused. Always learning.

Combining technical expertise with creative problem-solving to design smart, practical technology solutions for businesses.

Experience

Experienced IT professional and entrepreneur with over 30 years of expertise in computer systems, networking, and customer support. Adept at providing comprehensive technology solutions tailored to diverse industries, including hospitality, architecture, healthcare, and small-to-medium enterprises. Strong problem-solving skills, hands-on technical proficiency, and a commitment to delivering reliable, cost-effective solutions.

Employment history

Reboot Technologic — Proprietor December 1993 – Present

- Provide end-to-end IT solutions, from consultation to implementation and support, for clients across multiple industries.
- Sell, install, and maintain computers, servers, and networking equipment.
- Install and configure Microsoft Server environments — including domains, users, and basic security policies.
- Skilled in VMWare and VirtualBox for server simulation and testing environments.
- Implement CCTV solutions (Hikvision Analog/IP systems) for small and medium offices.
- Design and deploy small-scale networks with switches, routers, and firewalls.
- Install and support user applications (MS Office, Tally, Busy, Adobe Creative Suite, AutoCAD, CorelDRAW).
- Create custom tools such as Win-PE boot CDs, bootable drives, and fast-restore disk images.
- Offer NAS and backup solutions tailored to client needs.
- Known for understanding client requirements and offering practical, cost-effective, and innovative solutions.

HCL Ltd. — Customer Support Engineer 1990 – 1993

- Supported desktops and Reprographic (Photocopiers) product lines (Toshiba/HCL/HP).
- Performed chip-level testing and repairs on communication devices, including EPABX, fax and telex systems.
- Developed technical expertise in computer and office automation service and repair.
